BE SNACK-WISE . . . USE THE ChooseMyPlate TO PLAN SNACKS

What’s the first thing your children say when they come in the door? “I’m hungry. What’s to eat?”

It can be hard for children to get all the nutrients and calories they need in three meals a day, especially if they are very active. Studies show many children do not get enough iron, vitamin A, or vitamin C. Good snacks can provide these and other vital nutrients. That’s why nutritious snacks are good for growing children.

Snacks based on the ChooseMyPlate provide the biggest nutritional bang for your snack-time buck. Try these ideas for snacks at home or “on the go”:

CAUTION:
Be aware of choking risks and food allergies when preparing and serving meals and snacks. Think about the size, shape, and consistency when choosing foods due to the potential choking risks in children. Do not cut in large chunks, small hard foods, and soft and sticky foods should be avoided. The top choking hazards for children include: hot dog, meats, sausages, fish with bones, spoonful of peanut butter, popcorn, chips, pretzel nuggets, raisins, whole grapes, raw carrots, fruits and vegetables with skins, and marshmallows. Be sure that food is cut in small pieces (no larger than 1/2 inch), grated, or finely chopped. Be sure that children are closely supervised when they are eating.

Do not give honey to children under 12 months of age. Honey contains spores that can cause infant botulism.

Many children have food allergies or sensitivities to food. According to the American Academy of Pediatrics, 90% of children’s food allergies are from milk, eggs, peanuts, tree nuts (pecan/walnut), fish, shellfish, strawberries, soy, wheat, and gluten. Carefully read food labels for potential risks and be sure to ask the parents if children have a known allergy or sensitivity.

Dental health is a growing concern with young children, so it is important to keep in mind that starchy, sticky, and sugary foods can cause tooth decay. Children should brush their teeth after any meal or snack, but particularly when you serve these foods.
