

## Inclusion

Discuss with a group or write your responses to the following.

*Before the Vodcast:*

- Think about what inclusion means to you. In your own words, write a couple of sentences or a short paragraph of what inclusion means. Share your ideas with your group or consider talking with other educators about inclusion and inclusion best practices.
- 

- Inclusion can bring about many questions and challenges. Think about questions you have about inclusion. Think also about what you feel are challenges, such as not knowing or having program policies for inclusion.
- 

*After the Vodcast:*

- Take a minute to review what you wrote about inclusion. Now that you have watched the vodcast and have been thinking about inclusion, what would you add or change? Write your ideas below and discuss within your group or reflect on your additions personally.
-

- Several educators shared their ideas on inclusion in the video vodcast. In thinking about what they shared, what 'stuck with you' or rather, what is the most important thing you learned about inclusion from the video vodcast? Share your ideas with others.

- Access, participation, and support are central to inclusion best practices. Consider what each means and how these may benefit a child with special needs (as well as the program). Write your ideas below. Discuss your ideas with your group or use as self-reflection.

## Notes:
